Wassen's Obs Stars, St. Clair's Blocks.

A Library of Universal Information THE NEW American Cyclopaedia. A Popular Dictionary of General

Knowledge. Edited by GEORGE RIPLEY and CHAS. A. DANA, sided by a numerous select corps of writers, in all branches of Art, Looking-Glasses, Looking-Glass Science and Literature. In 16 large volumes, 8vo. 750 double-column pag n each volume.

The leading claims to the public cons which the New American Cylopedia posse be briefly stated:

be briefly stated:

1. It surpasses all other works in the fullness ability of the articles relating to the United State. No other work contains so many reliable by graphies of the leading men of this and other tious. In this respect its far superior even to more Bulky Encyclopedia Britannica.

8. The beat in dad in this country have been a ployed in enriching its pages with the latest de and the most recent discoveries in every branch manufactur, mechanics, and general science.

4. It is a library in itself, where every top treated and where information can be gleaned where information can be gleaned where itself in the second consoler authorities, thus affording him an invaluately to hoowledge. other authorities, thus amorging him an invaluable key to knowledge
5. It is neatly printed, with readable type, good paper, and coutains a most conspicious inde
6. It is the only work which gives any thing a pruaching errect descriptions of cities and towns
America, or embraces reliable statistices showle

A Cyclopedia is pregninently the work for our country and generation. This is the age of at am No one has time to grope among a hundred differen works for every little fact required, without the cer-tainty of finding it at last. With a Cyclopedia, em-bracing cvery conceivable subject, and having it topics alphabetically arranged, not a moment is lost.
